My Apps

Notes:

- 1 If the users of Admin Level login to this page, then the "Back to Admin View" will be displayed in every page and click it to back to EMP Admin Backend. Otherwise, it will not.
- 2 Click "Create App" button to direct App Creator to the page of "Building App".
- 3 The functions of "Edit" button is based on the App Status:
1) If the app is in Draft status, clicking Edit button will direct the user to edit the app.
2) If the app is in Submitted status, clicking Edit button will pop up a message saying "Your app is submitting to Android Market, you can only edit it when the first version is approved by Android Market and published online."
3) If the app is in Approved status, clicking Edit button will direct user to edit the app with "Step 1- Fill in Basic Info" inactive.
- 4 Only the approved apps have the enable "View Comment" button. Click the button to direct to View Comment Page (see in the next page)
- 5 Click the close button will stay on the page.
- 6 Only the approved app has its online link, click it can open a new window link to Android Market to preview

Example link: <https://market.android.com/details?id=air.com.mobbase.android.A45>

Description:

Add App Information

Notes:

① Before finishing the step 1, the following steps are inactive. But, there is no any limitation to the step sequence after step 1 saved; that is to say, App Creator can go to any step as they like and the current step would be highlighted

② “App Icon for Android Device/Market ” refers to the icon shown on the Android Device and the Android Market

③ Click the “Browse” button for image selection

④ Click “Browse” to select an image for loading screen of the app.

⑤ Add app description here.

⑥ Click the dropdown to select one provided date format for general setting of the whole app and reflect to Android UI.

⑦ 1) Click to “Save” data into the database and show a “Next” buttons(See in the next page).
2) If this is the second app App Creator creating, then after clicking “Save” button, a box will pop up to ask whether to duplicate other app’s settings or not (See in the next page).

PS: If some required are not finished, a red warning would be shown under “Submit” button saying “XX is required.” This warning is applied to all the required fields in the following pages.

Description:

Feature Function: Photo Gallery
Example Feature: Photo Gallery – Image Selection for a second time

Notes:

- 1 Click “Browse” to open a dialogue box for selecting more photo(s) to upload. App Creator can select maximum 5 photos one time. All the photos selected will be displayed in the box below for preview. All this newly added photos will display above the previous uploaded images.
- 2 Mouse-over the image thumbnail, there will be a “Delete” button for App Creator to delete the photos he/she don't want to upload now.
- 3 Click “Upload” to upload all the images selected and please refer to next page about the upload process.

But if user selects more than 5 photos one time, there will be a warning message saying “You can only upload 5 photos one time, please upload others next time.” when clicking the “Upload” button.

NOTE: The layout and diagrams shown do not represent final page layout, design or copy.

Description:

Customize Appearance

Notes:

- 1 Here App Creator can either click the color field to select a color or upload an image for the App Background. But the image's priority is higher than pure color.
- 2 Click the field to select a color for the App Text
Click the item on the right to link to the detail page in the Preview Tool

3. Flash effect color, Tab, Bottom Nav Bar, Pop-up Box, General Button, List Page Line and Comment Icon are based on the Top Title Bar's color setting.
2. Texts in Tab, Bottom Nav Bar, Pop-up Box, General Button and Comment Icon are based on the Top Title Bar Text's color setting.
- (As for the color percent, it is TBD by the Creative's adjustment)

- 4 Click the field to select a color for the Top Title Bar and its Text
- 5 Click the radio button to select a color for the View/like/Comment Icon
- 6 Mouse over the question mark will pop up a box displaying the explanation.
- 7 Click "Save" to save all the data into database

[illegible]

A screenshot of a social media interface. At the top, there's a title "Title 1". Below it are three icons: a speech bubble with the number "5" inside a yellow circle, a globe icon followed by the number "12345", and a thumbs-up icon followed by the number "456". To the right of these is a blue speech bubble icon followed by the number "78". The main body of the post contains several lines of placeholder text: "Text text text text text text text text Text tex", "text text text text text text Text text tex", "text text text text text Text text text tex", "text text text text Text text text text tex", and "text text text". A yellow circle with the number "2" is overlaid on the second line of text.

Description:

Submit

Notes:

- 1 This section will generate the basic info of the app
- 2 If the App Creator adds features but do not add anything to, then this section will be displayed as a warning and block the app submission. Otherwise, this section will be hidden and the app can be submitted normally.
- 3 The feature had nothing in it will be listed here with the name that App Creator customized.
- 4 This is a sentence set for warning for the feature.

Click "Submit", there will be two situations:

- 5 1) If it is the first time for App Creator to submit an app, then a confirm box would pop up that "Please confirm the app basic information showing on this page and if any changes in future, you need to submit a new app once it's live. If sure now, click "Yes" to submit. Otherwise, click "No" to save it as Draft for editing. Yes/No". Click "Yes" to submit the app to our system and refresh to show next page; click "No" to direct to save it as a "Draft" and direct to "My App" list page.
- 6 2) If its an Android approved app and App Creator just make some revisions and click "Submit" here, a message saying "The revisions will be reflected directly in the app once App User reconnects to internet. Are you sure to submit the changes? Yes/No." Click "Yes" to update the app in a real-time in Android Market and refresh to next page; click "No" to direct to "My App" list page.

My Account

Notes:

① This page will generate the basic info for this App Creator that Admin created in the Backend

② Under “Change Password” , App Creator can fill in the password fields to change to a new password.

③ If user enters Current Password incorrectly, there will be a message saying “Please make sure you enter the correct password”.

④ If “New Password” is different from “Confirm New Password”, there will be a message saying – “Confirm New Password” doesn’t match “New Password.”

⑤ If the password User enters is against the rule, the notes under the field will become red.

⑥ Click “Save” , there will be a message saying: You have successfully updated your account information.
